

Checklist

Does your paper specifically discuss:

- Climate
- Average precipitation
- Types of vegetation (should include many kinds).
- Animal life (again, there should be a lot).
- Decomposers
- Temperature Ranges
- Migratory animals
- Interaction between living and nonliving factors
- Elevation
- Any other relevant information?

Does your paper include:

- A title page
- A packing list with 10-15 items written in complete sentences
- Citations throughout the packing list
- Five journal entries describing what life looks like in the biome (about 8 lines each)
- Citations throughout the journal entries
- A recommendation on whether or not people should live in this biome
- Citations throughout the recommendation
- A references page (references should be in alphabetical order).

Does your paper:

- Follow APA format as outlined in class as well as in the APA PowerPoint available at cpbiomes.weebly.com
 - Appropriate headers
 - Title page
 - TNR, 12-point font
 - In-text citations
 - References page (with a hanging indent).
